

MobFox is an emerging company in the mobile advertising space with offices in London, San Francisco and Vienna. It is the biggest platform in Europe and the 10th biggest worldwide. With its innovative solutions and newest technologies it has attracted over 20,000 publishers and thousands of advertisers.

MobFox has been acquired by the listed **Matomy Media Group** (Israel) in November 2014 - as we expand our team in **Vienna/Austria** we are searching for a...

Senior Frontend JavaScript/PHP Developer (Full time: 38,5 hours / week)

What we offer:

- Work in an international environment
- Young and dynamic A-team
- Room for personal development
- Flexible working hours
- Room for own ideas and improvement to the product
- Great team, office, coffee and regular team activities

Your mission:

- Develop new features and maintain our current frontend user panel
- Actively contribute to and develop our new frontend user panel (single page state-full app)
- Development of analytics tools and visualisations for reporting

Your skills:

- Hands on experience with **REST APIs** (OAuth 2.0, HTTP 1.1, etc.)
- Very good JavaScript and PHP 5 knowledge (theory and practice)
- Modern JavaScript Development (modules, build tools, testing, clean code)
- Modern PHP development (PHPUnit, Composer, dependency injection, version control, clean code)
- Solid Experience with HTML, JavaScript, AJAX and CSS
- MySQL and database knowledge
- Good English skills spoken and written
- Systematic thinking and fast comprehension

We offer a salary, which is conform to Austrian law (IT-KV) starting at **€ 3.000 per month (14 times)** with the willingness to overpay depending on your qualifications and experience.

If you want to bring your engagement and skills into an international company, which values team culture, please send your CV and cover letter to Michael Ionita: michael@mobfox.com
