

## Intern Product Management (m/f) (Berlin)

**You are looking for a dynamic and exciting work environment? A fast environment with a steep learning curve?**

*We got it!*

POSpulse GmbH is the leading crowd based Shopper Insights Intelligence company, providing leading industry segments with more transparency and excellence to better market their products and services. With a panel of mobile shoppers and the proprietary app "ShopScout" POSpulse generates insights along the entire customer decision journey: at home, out-of-home and directly at the point of experience (POE). Thanks to a state-of-the-art analytics dashboard, the results are analyzed by industry experts making sense of shopper data and providing real-time quality and actionable recommendations. Their customers include among others Mondelēz International, Mars Petcare, Media Markt, STORCK and Vodafone. [www.pospulse.com](http://www.pospulse.com).

As of now, we are looking for a highly motivated and passionate Intern (m/f) to support our Product team.

### Your responsibilities:

- Support the product and development team with various managerial and organizational tasks
- Coordinate and manage user testing and usability sessions
- Quality assurance and data screening
- Find innovative solutions to organisational and technical challenges as they arise
- Learn product management tools and process
- Work closely with Engineering teams through development and implementation cycles

### What you can expect:

- A paid internship of 6 months
- An international and open atmosphere supporting a steep learning curve
- A leadership team who lives flat hierarchies and cares about their team members
- Responsibility from day 1, space for creativity and new ideas
- Cross-functional opportunities in project and teamwork
- The opportunity to learn UX/UI principles and approaches, agile processes and methodologies for mobile and web development
- Your contribution will have a direct impact on the quality of the final product
- Macbook and co.
- Regular team events, fresh fruits and drinks for free, pets allowed and other benefits
- A modern office directly at the trainstation Sonnenallee

### What we are looking for:

- Bachelor's degree in a related topic (e.g. Design, Engineering, Business, Philosophy)
- Flexible and adaptive to changing requirements and constraints
- Results oriented and problem solver
- Attention to detail
- Data driven and analytical mindset
- Good communicator and team player
- Passion for technology and digital products

- Relevant experience in online product management, either web or mobile apps; having worked in B2B or mobile is a big plus
- QA background is a big plus
- Fluent in English; German skills are a plus, but not a must.

Is this the challenge you are looking for? Awesome! We are looking forward to your application directed to Stephanie Höfler. This is what your application should contain at least. CV, cover letter, earliest starting date and your salary expectations.
