

“ **Every 10 years there is a big computing platform taking over - desktop, phone and now it will be VR and AR.** ”

Mark Zuckerberg

We need you:

## Senior Android Developer

Artivive is an **easy-to-use tool for artists** to expand their artwork into new dimensions using **augmented reality**. We're a **Viennese start-up** founded in 2017 aiming to change the way art is made and consumed.

### We need you to:

We are looking for an Android Developer to join our team of developers! We want a developer that possesses passion for pushing mobile technologies to the limits. You will work with our team of talented engineers to design and build the next generation of our mobile applications.

### Duties and Responsibilities

- Design and build advanced applications for the Android platform.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Work with outside data sources and API's.
- Unit-test code for robustness, including edge cases, usability, and general reliability.
- Work on bug fixing and improving application performance.
- Continuously discover, evaluate, and implement new technologies to maximize development efficiency.

### Our Expectations

- BS/MS degree in Computer Science, Engineering or a related subject
- 3 years of Android development
- Experience with Android SDK
- Experience with Unity
- Experience working with remote data via REST and JSON
- Working knowledge of the general mobile landscape, architectures, trends, and emerging technologies
- Solid understanding of the full mobile development life cycle
