

CTO / Co-Founder (m/f)

NextLevelTravel, a young travel start-up, which already has a highly developed product, aims to connect people with the same travel interests. We are currently looking for immediate and long-term motivated and creative support to strengthen and set up our It- Team.

Tasks

- You will be able to develop and develop an individual, database-based web application on the basis of PHP 5, PHP 5.6, PHP 7, Symfony 2 / Symfony 3 and MySQL & PHP
- You are responsible for the implementation of interfaces to and from third-party systems using SOAP, REST, CURL and XML
- Completion and debugging of framework components and third-party code
- Maintenance and maintenance of databases
- Continuous development, support and improvement of the PHP code
- Coordination and close co-operation with the Frontend-Team

Profile

- Very good knowledge of Symfony 2 / Symfony 3
- Good knowledge of AngularJS / Typescript
- You have proven several years of experience in the backend area
- You could have already gained some experience in the tourism sector
- You have already linked SOAP and REST Webservices to several projects and developed them yourself
- Implementing API interfaces using CURL and XML is routine for you
- You can differentiate between code optimization and bloating
- You are able to implement optimized caching mechanisms
- Experience with PHP (5), CSS (3), Javascript, MySQL is a plus

What do we offer you?

- Great team
- Company shares
- Flexible working methods
- We encourage creative ideas and self-responsibility
- Flat organizational structures and short decision-making processes
- Constantly new challenges
