

Kickr is looking for a Full Stack Web-Developer (M/F) for a platform solution  
as a Co-Founder / CTO

Kickr is a future digital marketing platform for artists and designer, where user can increase their reach and sales through provided online marketing tools like email, blogs, social media, etc.

We are a team of 8 (2 Co-Founders, 5 team members) motivated people with different background, between 21-27 years old and mostly students. We are now looking for another technical team member who is also interested in being a co-founder of Kickr. We are based in Vienna, but you don't need to be too.

Your mission:

- Management of software development
- Frontend Web-Development (HTML5, CSS, Javascript)
- Backend Web-Development with focus on scalability (Node.js, etc.)
- Usage of scalable database systems (Mongodb, etc.)
- Planning and administration of scalable network configuration
- Project management of app development (IOS, Android)

If you are interested to work with a innovative and motivated young team on a game changing idea, we're happy about your email ([hello@kickr.me](mailto:hello@kickr.me)) or call +43 676 560 11 95.

We're looking forward to meet you.
