

STARTUP INTERN

📍 Vienna, Austria

Are you passionate about entrepreneurship and data? Are you motivated and eager to get practical experience in an international team of analysts, data geeks, storytellers, and startup enthusiasts?

Great! Join [StartUs Insights](#), an international data science company analyzing startups, scale-ups and their technologies to deliver actionable innovation intelligence.

We are looking for a motivated, curious, and driven Startup Intern to join our team. Apply now!

ABOUT YOU:

- curious about new technologies, startups and data-driven approaches
- highly motivated and eager to gain practical experience in the startup environment
- communicative & a team player
- advanced in English (C1 level) and at least upper-intermediate in German (B2 level)

YOUR MISSION:

- get hands-on experience in different areas: [#Business Development](#), [#Project Management & Organization](#), [#Marketing](#), [#Research](#)
- go through our 12-weeks-long internship to showcase (or discover) your strengths
- get an opportunity to rock one of these areas and become a core member of our team

WHAT YOU GET:

- work in an environment where your decisions shape the future of StartUs Insights
- learn from people who grew StartUs Insights from an idea to a growing business
- take advantage of our personal development programs
- work in our office in the center of Vienna (Westbahnhof)
- flexible working hours
- 12-weeks-long voluntary position with the outlook of further employment, as we are looking for a team member who will grow with us!
